Dat Thai

Seattle, WA | (206) 432-58320 | thaid@spu.edu | linkedin.com/in/dat-thai-29b829250/

QUALIFICATIONS

- Experienced with analog and digital systems, including operational amplifier design, microcontroller programming, and signal processing.
- Adept at troubleshooting technical systems and providing real-time AV support, ensuring zero operational downtime in high-demand environments.
- Strong foundation in applied mathematics and physics, reinforced through tutoring and peer instruction in Calculus and Mechanics.
- Skilled in collaborative team environments and technical communication, honed through event coordination and technical support roles.
- Familiar with industry tools such as Multisim, MATLAB, and oscilloscopes for simulation, measurement, and circuit debugging.

EDUCATION

- Seattle Pacific University | B.S. in Electrical Engineering | Expected June 2027
- Cascadia College | A.S. in Computer Engineering | 2022 – 2025
- SPU Transfer Merit Scholarship

EXPRIENCES

ARC AV Technician / Building Manager | Univ. of Washington Bothell | Jun 2023 – Jun 2025

- Provided on-site technical support and ensured readiness of event spaces.
- Provided technical support during 30+ AV events with zero downtime, ensuring smooth operation and user satisfaction.
- Handled 100+ weekly front desk check-ins with accuracy and professionalism, improving service efficiency.
- Operated AV equipment and supported building logistics for student events.

Mathematics Tutor | Cascadia College | Sep 2022 – Jun 2024

- Tutored Calculus and Physics to support students.
- Promoted understanding through problem-solving strategies.
- Assisted over 50 students in STEM subjects, leading to a 20% average improvement in academic performance.
- Delivered structured support in Calculus and Physics, improving student confidence and problem-solving skills.
